

**REISSUE APPLICATION DECLARATION BY THE INVENTOR**

Docket Number (Optional)

1630-0514PUS2

I hereby declare that:

Each inventor's residence, mailing address and citizenship are stated below next to their name.

I believe the inventors named below to be the original and first inventor(s) of the subject matter which is described and claimed in patent number 6,253,221, granted June 26, 2001 and for which a reissue patent is sought on the invention entitled

COPY PREVENTION METHOD AND APPARATUS FOR DIGITAL VIDEO SYSTEM

the specification of which

☐ is attached hereto (also enclosed is a Preliminary Amendment).

☒ Was filed on January 12, 2006 as reissue application number 11/330,424

January 12, 2006 (a Preliminary Amendment);

December 26, 2006; February 12, 2008; July 21, 2008;

and was amended on April 23, 2009; June 18, 2009; and the attached amendment

I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to patentability as defined in 37 CFR 1.56.

☒ I hereby claim foreign priority benefits under 35 U.S.C. 119(a)-(d) or (f), or 365(b). Attached is form PTO/SB/02B (or equivalent) listing the foreign applications.

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

☐ by reason of a defective specification or drawing.

☒ by reason of the patentee claiming more or less than he had the right to claim in the patent.

☐ by reason of other errors.

At least one error upon which reissue is based is described below. If the reissue is a broadening reissue, such must be stated with an explanation as to the nature of the broadening:

U. S. Patent No. 6,253,221 claims 1-11 recite features of a method and apparatus for character display, but fail to recite the particular combination of features recited in new claims 47, 48, 50-52, 58, 61-63 and 65-77. This reissue application is also a BROADENING REISSUE, at least because the independent claims do not recite that character signals of a language for subtitle processing selected from multi-languages are generated and to be used in multilingual character subtitle processing on the basis of font data, at least some of which are recorded in the optical disc as recited in claims 1 and 11 of the issued patent.

<p><b>WARNING:</b>                  Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioner/applicant should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.</p> <p>I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine and imprisonment, or both, under 18 U.S.C. 1001, and that such willful false statements may jeopardize the validity of the application, any patent issuing thereon, or any patent to which this declaration is directed.</p>
